

a³ 8. (Amended) The pharmaceutical composition for application to the mucosa according to claim 1 or 3, further comprising an osmotic pressure-controlling agent.

a⁴ 10. (Amended) The pharmaceutical composition for application to the mucosa according to claim 8, wherein said osmotic pressure-controlling agent is sodium chloride.

a⁵ 12. (Amended) The pharmaceutical composition for application to the mucosa according to claim 8, wherein said osmotic pressure-controlling agent is glucose.

13. (Amended) The pharmaceutical composition for application to the mucosa according to claim 1 or 3, wherein said water-insoluble and/or low water soluble substance is a cellulose.

a⁶ 15. (Amended) The pharmaceutical composition for application to the mucosa according to claim 1 or 3, wherein said one or more water-insoluble and/or low water soluble substance is present as solid particles in an aqueous medium.

16. (Amended) The pharmaceutical composition for application to the mucosa according to claim 1 or 3, wherein said one or more water-insoluble and/or low water soluble substance is dispersed as solid particles in an aqueous medium.

AMENDMENT
U.S. Appln. No. 09/554,827

a⁶ concd

17. (Twice Amended) The pharmaceutical composition for application to the mucosa according to claim 1 or 3 , further comprising a water-soluble polymer substance.

19. (Amended) The pharmaceutical composition for application to the mucosa according to claim 17, wherein said water-soluble polymer is carboxymethyl cellulose sodium.

a⁷

20. (Amended) The pharmaceutical composition for application to the mucosa according to claim 17, wherein said water-soluble polymer is xanthan gum.

21. (Amended) The pharmaceutical composition for application to the mucosa according to claim 17, wherein said water-soluble polymer is hydroxypropyl methyl cellulose.

a⁸

23. (Twice Amended) The pharmaceutical composition for application to the mucosa according to claim 1 or 3 , further comprising a surfactant.

25. (Twice Amended) The pharmaceutical composition for application to the mucosa according to any of claims 1 or 3, wherein said medicament is a water-soluble medicament.

a⁹

26. (Twice Amended) The pharmaceutical composition for application to the mucosa according to any of claims 1 or 3, wherein said medicament is a liposoluble medicament.
